

Hi,

My name is Gerald, Sharny's husband.

I would like to add my comments about your program and what this has meant to me and my family.

Before Sharney joined your group, I was at my wits end and ready to give up. This would have meant a complete breakdown of our family unit. Our children would be torn apart having no stability in the family, as a result of our marriage breaking up.

Because of your program, I now have my best friend back, my lovely wife, my life partner, my soul mate, the person I fell in love with all those years ago, I still get tingles when we hold hands.

Our children still have their all important family unit, the stability.

Having experienced depression first hand, it is my opinion that depression may be the major cause of marriage breakups and thus family relationship breakdowns.

I thank you again for this great program and my hope is that this program becomes the first point of address when marriage starts to breakdown.

Another point is that of understanding. Me understanding that Sharney needed help and that I had a part to play in this.

My family and I thank you again.

Best regards

Gerald
